

POLICY RELATING TO SUPPORT OPERATIONS

FACILITIES SECURITY

The Wachusett Regional School community buildings and grounds are one of the greatest investments of the District. It is deemed in the best interest of the District to protect the investment adequately.

Security should mean not only maintenance of a secure building, but also protection from fire hazards and faulty equipment, as well as safe practices in the use of electrical, plumbing, and heating equipment. The Wachusett Regional School Committee expects close cooperation with fire and law enforcement departments and with insurance company inspectors.

Access to school buildings and grounds outside of regular school hours and/or permitted-uses will be limited to personnel whose work requires it. Adequate access-control systems will be established, which will safeguard against the chance of entrance to buildings by unauthorized persons.

Provisions shall be made to store funds and valuable records in a safe place and under lock and key.

The District shall secure buildings, assure fire protection, and maintain security equipment.
