Math Mania

Incoming fifth grade students are invited to attend “Math Mania”, a review of math skills all fifth grade students should have to be successful in our math curriculum. This review will be taught by Mrs. Lori St. Germain and Miss Liz Warner. We will review skills previously learned in elementary school. We promise to make this engaging, fun, and productive. There will not be any homework or tests.

Math Mania will take place from Tuesday, August 20 through Thursday, August 22, 2013, from 9:00 - 11:00 AM each day. The review classes will take place in the fifth grade classrooms. The review sessions are open to any incoming fifth grade student of Dawson School. The cost of this 3 day review session is $75.00.

Parents must provide transportation to and from the classes. Please be sure that students arrive on time and are picked up promptly by 11 AM. We request that students attend all 3 days of the review to fully benefit from the course.

Please complete the registration form and send with payment made out to Dawson Activity Fund to Dawson School by August 1, 2013.
