

POLICY RELATING TO PUPIL SERVICES

STUDENT INTERNET ACCESS

While the Wachusett Regional School Committee encourages the use of electronic communication to promote excellence in education, the School Committee also recognizes its responsibility to reasonably ensure the safety of students using the District's Internet connection. The District prohibits non-educational use of the Internet through its network facilities.

Each school shall publish age-appropriate procedures, rules, and responsibilities pertaining to student Internet access. See Policy 6531.1 for student use of social media.
