

POLICY RELATING TO EDUCATION

ETHICS POLICY

The Wachusett Regional School Committee is committed to exhibiting, practicing and promoting ethical behavior. The Wachusett Regional School Committee expects all employees of the Wachusett Regional School District to exhibit, practice and promote ethical behavior in the performance of their duties and responsibilities.

The Wachusett Regional School Committee believes that all students should be exposed to and be given opportunity to discuss and clarify ethical issues of justice, truth, respect, and responsibility, in order to prepare them as citizens, family and community members. The District should take every opportunity to include ethical awareness in all areas of its curriculum. The District should similarly provide professional development and training opportunities designed to heighten ethical awareness in the classroom.
